Question and Answers

To complete your application, you are required to answer the following questions as openly and with as much information as possible.

What interests you about subspecialising in shoulder & elbow surgery?

What do you consider to be the purpose of Fellowship and why is it important?

What are your expectations of Fellowship? NB please be specific regarding amount and type of operating, assisting operating, seeing patients in Clinic and undertaking research.

What do you consider to be your strengths as a surgeon (and physician)?

*How much experience do you have in shoulder and elbow surgeries? **NB** be specific in terms of procedures performed, assisted and/or observed and recency of experience.*

In which areas do you feel you need some improvement as a surgeon (physician)?

Which shoulder and elbow procedures do you feel you require more training and experience?

Why do you want to do Fellowship in Sydney, Australia?

Why do you want to do Fellowship at Sydney Shoulder Research Institute?

Which other cities in Australia or the world have you considered doing Fellowship and why?

Do you intend to do any travelling before/after Fellowship? If so, where to and when?

All Fellowships only offer a basic stipend or salary. How will you support yourself in Sydney?

If successful, who would accompany you to Sydney for the year and what will they do here?

What are your career intentions after Fellowship?

Which year do you hope to do Fellowship and commencing when (Jan or Jul) and what is the main consideration for you with this timing?
